IV. Emotionally Focused Therapy – Couple Work
 tials)

EFT is a structured approach to couples therapy formulated by Sue Johnson and Les Greenberg in the early 80's. The strategies and techniques of **EFT** are also used with families. A substantial body of research outlining the effectiveness of **EFT** now exists. This research demonstrates that couples significantly improve over the course of treatment and continue to get better at two year follow up. Please refer to the EFT website to get further information about the treatment model and present outcome research. www.eft.ca

The Goals of EFT are:

1. To expand and re-organize key emotional responses
2. To create a shift in partner's interactional patterns
3. To foster the creation of a SECURE bond between partners
